

**Across our nation, communities are drinking polluted water, breathing unhealthy air, forced to live next to toxic sites, and being impacted by a growing climate crisis with few enforceable remedies in sight. be won today, before we reach the point of no return.**

### WHAT IS A GREEN AMENDMENT?

Green Amendments are added to the bill of rights section of a constitution and use carefully crafted language recognizes & protects the rights of all people to clean water & air, a safe climate, & a healthy environment, & ensures these rights are protected equitably for all people, communities & generations.

**OUR ENVIRONMENT IS OUR GREATEST ASSET. It protects our health, our economy, the quality of our lives and the sanctity of our bodies and our homes. WE ALL NEED CLEAN WATER, AIR AND HEALTHY ENVIRONMENTS TO LIVE AND THRIVE. It is just and right that our environmental rights are given highest constitutional protection. THE BATTLE TO SAVE OUR WATER, AIR, CLIMATE AND ENVIRONMENT MUST BE WON TODAY, BEFORE WE REACH THE POINT OF NO RETURN.**

Green Amendments For The Generations is the only organization working nationwide to secure constitutional protection for our environmental rights.

**GREEN AMENDMENTS<sup>®</sup>**  
**FOR THE GENERATIONS**  
Pure Water. Clean Air. Healthy Environment.

## Green Amendments Help People ~ Workers Business ~ Communities

- ✓ Prioritize government action to protect water, air, ecosystems, environment & climate.
- ✓ Incentivize government decisions, actions, permitting, funding & programs that encourage, support & protect clean energy & environmentally positive businesses.
- ✓ Ensure governments assesses, address & avoid cumulative impacts of pollution across communities & generations.
- ✓ Mandate more detailed government assessments of environmental impacts early in deliberations & at all levels of decisionmaking.
- ✓ Ensure scientific research, data & cumulative impact assessments are part of community awareness & government decisionmaking.
- ✓ Ensure more thorough environmental reviews & decisionmaking that will not only result in better outcomes, but will help government & business avoid and/or defend against legal challenges.
- ✓ Help identify businesses that prioritize a commitment to protecting the communities in which they operate.
- ✓ Support a healthy workforce coming to work every day, by securing better outcomes for environmental protection, including cleanups & restoration when needed.
- ✓ Ensure clean water for manufacturing, pharmaceuticals, farming, ecotourism, and other businesses striving for, and benefiting from, healthy environments.
