

**GREEN AMENDMENTS
FOR THE GENERATIONS**
Pure Water. Clean Air. Healthy Environment.

**DETROITERS WORKING FOR
ENVIRONMENTAL JUSTICE**

Green Amendment

provides the highest level of protection for your right to pure water, clean air, a stable climate, and healthy environments.

strengthens advocacy and changes public mindset regarding environmental issues

requires legislators to consider environmental impacts at the beginning of the decision-making process

focuses government on preventing pollution and environmental degradation rather than managing it

A Green Amendment

must...

be placed in the Bill of Rights/Declaration of Rights

be self-executing so laws and regulations are not needed to give them legal life

mention environmental values to be protected (pure water, clean air, stable climate, & healthy environments)

acknowledge environmental rights belong to both present and future generations

recognize environmental rights as inherent, inalienable, and indefeasible rights of all people regardless of race, ethnicity or income.

**THE BATTLE TO SAVE
OUR WATER, AIR,
CLIMATE &
ENVIRONMENT MUST
BE WON TODAY
BEFORE WE REACH
THE POINT OF NO
RETURN.**

**GREEN AMENDMENTS FOR THE GENERATIONS
SEEKS A PARADIGM SHIFT IN ENVIRONMENTAL
PROTECTION – ONE THAT FILLS THE GAP IN OUR
CURRENT SYSTEM OF ENVIRONMENTAL LAWS AND
PREVENTS RATHER THAN MANAGE
ENVIRONMENTAL POLLUTION AND DEGRADATION.**

Across our nation, communities are drinking polluted water, breathing unhealthy air, seeing forests fall and drilling rigs rise, and watching as contaminated sites are paved and developed rather than cleaned up.

The goal is to secure Green Amendments in every state constitution across our nation, and ultimately at the federal level, in order, to ensure the right to healthy environments has the highest constitutional recognition and protection available.
